

## Step 1: Digital Telepractice Workshop

The pre-recorded workshop tuition is \$150. In addition to the training, each participant will receive:

- Digital files to be used during teletherapy sessions (RW and puzzle pages, etc.)
- Digital therapy planning template
- Helpful teaching aids for instructing parents how to implement Rhythmic Writing
- Unlimited access (post-workshop) to a video demonstration of a teletherapy session

After completion of the course, participants will be eligible to purchase the annual NILD Educational Teletherapist license that includes use of the NILD/Zoom platform (Step 2).

## Step 2: NILD Educational Teletherapist Certification

In order to practice NILD interventions digitally, you MUST either:

- Purchase a Zoom license from NILD - this license is HIPAA/PIPEDA compliant (required by NILD for the safety and privacy of our students and therapists) and is priced at \$275 for the year (will be prorated depending on date of purchase) and will include certification through 8/31/2021

**OR**

- Work for a school/practice that has a HIPAA/PIPEDA compliant Business Associate Agreement with Zoom (on a paid business or corporate account) AND pay your \$50 teletherapist certification fee.

\*\*No other platforms are approved for use for NILD Educational Therapy. Licensure is priced and purchased separately through NILD.

\*\*NILD interventions may not be conducted digitally otherwise. Anyone found doing so will be considered out of compliance with their license and is in jeopardy of having their license revoked.

### Benefits of being a certified NILD Educational Teletherapist:

- Free subscription to a dedicated online support group (e-conference)—a telepractice mentoring resource to continue your professional development
- NILD Educational Teletherapist Certification will be added to your credentials on the NILD website under “Find a Teletherapist”
- Identification with the NILD brand and reputation
- Diversification of your practice - reach more students more often - snow days, sick days, and locale are no longer barriers
- Compliance with high-quality licensing and security standards
- Peace of mind from knowing students are still able to receive the interventions they need to be successful, independent learners
